

Strychnine Stewardship Program

Acquiring and Applying Strychnine

The emergency use of two per cent liquid strychnine concentrate (strychnine) to control Richardson's ground squirrels is approved in Saskatchewan until November 1, 2027. It can be acquired and applied through the following steps:

Complete online training

Complete online stewardship training, available through Saskatchewan Association of Rural Municipalities (SARM).

Submit required forms

Complete and submit your treatment plan and sign the declaration form.

Purchase through your RM

Contact your RM to confirm their participation, when their supply is available and at what price.

Apply during recommended windows

The recommended Spring application closes June 15. All treated areas must be monitored. Carcasses must be promptly collected and disposed properly.
